Rajpura, Punjab, India

Professional Summary

Second-year CSE student specializing in AI at Chitkara University with a strong foundation in Machine Learning, Deep Learning, and Data Analytics. Passionate about leveraging AI for social impact through hands-on projects and open-source collaboration.

Education

Chitkara University Rajpura, Punjab
Bachelor of Engineering in Computer Science (AI Specialization) *Aug 2024 – Jul 2028*
- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Deep Learning, Neural Networks, NLP

SRM International School India
High School - 11th and 12th Grade *Jun 2022 – Mar 2024*

Technical Skills

Programming Languages: Python, SQL, C/C++
AI/ML Technologies: Machine Learning Algorithms, Deep Learning, Neural Networks, Natural Language Processing
Data Analytics Tools: Microsoft Power BI, MySQL, Data Analysis, Statistical Analysis
Platforms & Tools: HuggingFace, OpenAI, Kaggle, Git, GitHub, Azure Fundamentals
Frameworks & Libraries: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib
Soft Skills: Problem Solving, Design Thinking, Collaboration, Continuous Learning, Agile Development

Projects

Savoré - Recipe Sharing Platform Feb 2025 – May 2025
Full-Stack Web Application — Chitkara University
- Developed a full-stack web application using Django enabling users to explore, share, and manage Veg and Non-Veg recipes with user authentication and interactive features including likes, comments, and nutritional insights
- Implemented calorie count and allergen tags for recipes, with classification system for Veg/Non-Veg categories
- Built interactive UI with like and comment system, allowing seamless user engagement and content interaction
- Designed admin dashboard for comprehensive recipe and user management with content moderation capabilities
- Engineered secure user authentication and profile update features with robust backend architecture
- Created clean, intuitive UI and robust backend features entirely without JavaScript, demonstrating strong Django proficiency
- **Technologies:** Django, SQLite, HTML/CSS, Python
- **GitHub:** [Repo Link]

Customer Shopping Behaviour Analysis Nov 2025
Data Analytics Project
- Conducted a comprehensive data analytics project analyzing customer shopping behavior patterns using Python, SQL, and Power BI
- Performed data cleaning, transformation, and statistical analysis on large customer datasets to extract actionable insights
- Created interactive Power BI dashboards visualizing customer segmentation, purchasing trends, and behavioral patterns
- Applied SQL queries for data extraction and used MySQL for database management and optimization
- Generated data-driven recommendations to improve customer engagement and business decision-making
- **Technologies:** Python, SQL, MySQL, Microsoft Power BI, Data Analysis
- **GitHub:** [Repo Link]

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900) - Cloud computing and Azure services expertise
Microsoft Certified: Azure AI Fundamentals (AI-900) - Artificial Intelligence on Azure platform
Microsoft Certified:Azure Data Fundamentals (DP-900) - Data engineering and analytics on Azure
Deloitte Data Analytics Job Simulation - Practical experience in enterprise-level data analytics
